Paras Bhatnagar

Principal Product Designer

I enjoy working across systems, strategy, and craft

Over the last 11+ years I've designed products across fintech, HR tech, E-learning, and loyalty platforms, turning complex ideas into clear, usable products

Work Experience

Pangea • Principle Product Designer
Mar 2026 - Present

- Leading product design from the ground up, defining product direction, UX foundations, and scalable design patterns.
- Establishing the design system and experience principles to drive consistency across product interfaces and touchpoints.
- Partnering with stakeholders and developers to align product vision, design decisions, and implementation quality.

ION Group • Lead Product Designer
Dec 2019 - Mar 2026

- Leading product design from the ground up, defining product direction, UX foundations, and scalable design patterns.
- Establishing the design system and experience principles to drive consistency across product interfaces and touchpoints.
- Simplified complex financial and enterprise workflows through system design, translating stakeholder problems into clear product solutions
- Introduced and scaled a design system that improved UI consistency and accelerated product development

PAR Tech (Punchh) • Product Designer
Jul 2017 - Dec 2019

- Improved mobile customer journeys through user feedback, prototyping, and usability testing

Compunnel Digital • UI/UX Designer
Feb 2015 - Jun 2017

ISOL Pvt. Ltd. • UI Designer
Apr 2014 - Feb 2015

Key Achievements

- Selected as one of the first local leaders for the interaction design foundation (IDF, Raj.) helping grow the regional UX community and awareness of UX education
- Winner of an internal ION hackathon for developing an innovative enterprise product concept
- Invited by Imagine XP as a jury member to evaluate UX student projects and share industry insights with aspiring designers
- Runner-up in a Behance Live design competition, recognized for creative problem-solving and design execution
